

**SCHOOL OF COMPUTER SCIENCE AND ENGINEERING
IILM UNIVERSITY, GREATER NOIDA, UTTAR PRADESH**

**INTERNSHIP REPORT
ON
WEB DEVELOPMENT INTERNSHIP
AT PRODIGY INFOTECH**

Submitted in partial fulfilment of the requirements for the degree of
Bachelor of Technology in Computer Science and Engineering

Submitted By

ABHISHEK ANAND

Roll Number: 25SCS1003005131

Section: 2CSE19

Semester: 3rd

Batch: 2026–27

Internship Organization: Prodigy InfoTech

Internship Role: Web Development Intern

Internship Duration: 1 August 2026 – 31 August 2026

2026–27

1. CANDIDATE'S DECLARATION

I, ABHISHEK ANAND, Roll Number 25SCS1003005131, student of B.Tech Computer Science and Engineering, Section 2CSE19, Semester 3rd, hereby declare that this internship report titled “Web Development Internship at Prodigy InfoTech” has been prepared for academic submission to IILM University in connection with my internship at Prodigy InfoTech.

I declare that the report has been prepared for academic purposes and that the supporting internship documents included at the end of this report are the documents issued/provided for my internship. I understand that I am responsible for maintaining academic integrity and for appropriately acknowledging material used in this report.

Abhishek Anand

Student Name: ABHISHEK ANAND

Roll No.: 25SCS1003005131

2. ACKNOWLEDGEMENT

I sincerely express my gratitude to Prodigy InfoTech for providing me the opportunity to undertake a Web Development Internship and gain practical exposure in the field of web development. The internship helped me understand professional work practices and provided an opportunity to develop practical skills related to building and maintaining web applications.

I am thankful to the mentors and team members who provided guidance, feedback and support throughout the internship. I also express my sincere thanks to the faculty members and internship coordinators of the School of Computer Science and Engineering, IILM University, for their academic support and guidance. Finally, I am grateful to my family and everyone who encouraged and supported me throughout the internship and helped me complete this report.

Signature:

Abhishek Anand

Student Name: ABHISHEK ANAND

Roll No.: 25SCS1003005131

3. INTERNSHIP COMPLETION CERTIFICATE

The Internship Completion Certificate issued by Prodigy InfoTech is reproduced in its original visual form in the supporting-documents section of this report. The certificate states that ABHISHEK ANAND successfully completed a one-month Web Development internship from 1 August 2026 to 31 August 2026.

4. PROJECT DESCRIPTION

4.1 Introduction

The internship project is presented as a Web Development Internship undertaken at Prodigy InfoTech. The internship provided exposure to the practical workflow involved in building, styling and deploying web applications using standard front-end and back-end tools and techniques. The work undertaken during the internship focused on strengthening core web-development skills such as page structuring, responsive design, client-server interaction and version control.

4.2 Organization Profile

Prodigy InfoTech is the organization where the internship was undertaken. The internship offer letter identifies the role as Web Development Intern and states that the internship was intended to provide hands-on experience in the field of web development over a duration of one month, from 1 August 2026 to 31 August 2026. The organization emphasises practical, project-based learning for interns and provides guidance through its mentors and team members during the internship period.

4.3 Problem Statement

Organizations increasingly require functional, responsive and user-friendly web applications to deliver information and services to their users. Without a structured approach to front-end and back-end development, such applications can suffer from poor usability, inconsistent design and limited maintainability. The internship therefore addressed the need to apply a systematic web-development workflow — from planning and design through to implementation and testing — so that ideas could be converted into working, deployable web applications.

4.4 Project Objectives

- Understand the fundamentals and practical workflow of web development.
- Design and build responsive front-end interfaces using HTML, CSS and JavaScript.
- Develop reusable components using modern front-end frameworks.
- Implement server-side logic and connect front-end applications to back-end services.
- Apply version control practices for collaborative development.
- Test and debug web applications to ensure functionality and reliability.

4.5 Scope of the Project

The internship covered the essential stages of a typical web-development workflow, including planning, UI design, front-end implementation, back-end integration and testing. The work was carried out on projects assigned during the internship and involved the use of standard web technologies for development. The scope was limited to the tasks and projects assigned during the internship period and did not extend to full-scale production deployment.

4.6 Technologies and Tools Used

Category	Technology / Tool	Purpose
Programming	HTML, CSS, JavaScript	Front-end structure, styling and interactivity
Frameworks / Libraries	React, Bootstrap	Building responsive user interfaces
Back-End	Node.js, Express.js	Server-side logic and API development
Database	MongoDB	Data storage and management
Development	VS Code, Git/GitHub	Development environment and version control

4.7 System Architecture / Workflow

The internship followed a standard web-development workflow. Requirements were first gathered and understood, followed by planning and design of the user interface. Front-end pages were then implemented and styled, and where applicable, connected to back-end services and databases. The resulting application was tested, debugged and refined based on feedback before being documented.

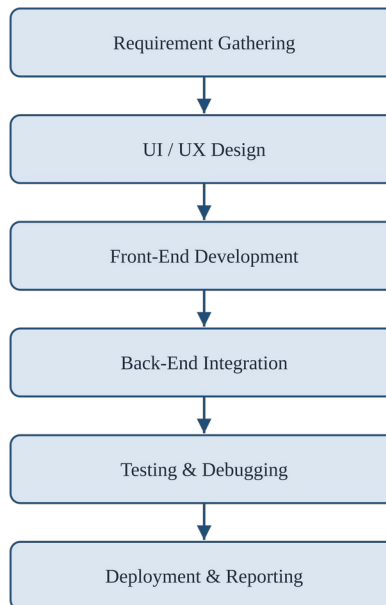

Fig. 4.7.1 — Web-development workflow followed during the internship.

4.8 Methodology

- Requirement and problem understanding.
- Planning and UI/UX design.
- Front-end development using HTML, CSS and JavaScript.
- Back-end and database integration, where applicable.

- Testing and debugging of the application.
- Documentation and presentation of findings.

4.9 Expected Outcomes

The expected outcome of the internship was a functional, responsive web application, supported by clean code, structured documentation and a clear understanding of the end-to-end web-development process. The internship also provided practical learning in front-end and back-end development, collaborative workflows using version control, and clear presentation of technical work.

4.10 Certificates of Completion and Communication Proof

The supporting-document section of this report contains the original visual pages of the Prodigy InfoTech Internship Offer Letter and Certificate of Completion. They are inserted as page images so that their wording, layout, signatures, logos and other visual elements remain unchanged from the supplied documents.

The offer letter identifies the internship as a Web Development Intern position, with a one-month duration commencing on 1 August 2026 and concluding on 31 August 2026. The completion certificate records successful completion of the one-month Web Development internship for the same period.

SUPPORTING DOCUMENTS

The following pages reproduce, in original visual form, the Internship Offer Letter and the Certificate of Completion issued by Prodigy InfoTech.

OFFER LETTER

31 July, 2026

CIN: PIT/AUG26/01100

Dear **Abhishek Anand**,

We are delighted to offer you the position of **Web Development Intern** at Prodigy InfoTech. As an intern, you will have the opportunity to work on real-world projects, build practical skills, and contribute meaningfully to our team. We are excited to welcome you aboard and look forward to supporting your professional growth throughout this journey.

The internship is scheduled to commence on the **1st August, 2026** and will conclude on the **31st August, 2026**, resulting in a 1-month duration for the program.

Please note that this program is intended solely for educational purposes and does not constitute an offer of employment. Successful completion of the internship does not guarantee future employment with Prodigy InfoTech.

As part of the program, you agree to adhere to all company policies and guidelines applicable to non-employee interns. This letter outlines the complete understanding between you and Prodigy InfoTech regarding your internship and supersedes any prior discussions or agreements. Any modifications must be made in writing and signed by both parties.

We look forward to your participation in the internship program and wish you a rewarding and enriching experience with us.

Sincerely,

Prodigy InfoTech

CERTIFICATE OF COMPLETION

CIN: PIT/AUG26/01100

Issued on: 01/09/2026

This Certificate is proudly presented to

Abhishek Anand

for successfully completing a **1-month** internship from **1st August, 2026**
to **31st August, 2026** in **Web Development** with outstanding remarks at
Prodigy InfoTech.
